Colonel George W. Crowe, the Colorado mining man, who with Marshall P. Wright, has good copper property in the Cananea district, is back from Tucson, where he has been detained a couple of weeks on account of illness. However, the gentleman is greatly improved and hopes soon to be himself again. The colonel also has mining interests in Sonora, south of Nogales.

L. H. Jansen, M. E., president and general manager of the Llano Copper Company, operating splendid copper mines adjoining the property of the Sonora Copper Company, of which A. M. John Henderson, the mine manager, is back from a visit to his gold mines at El Oro, in the Ures district, and his copper mines southeast of Caborca, in the Altar district, being accompanied by a number of mining friends. He reports progress on the railroad from the international line at Sasabe, to Port Lobo, and states work will commence on the building of same early next year. Recently Mr. Henderson acquired a number of new properties near the coast on which work will commence at an early date. One of the properties is gold which he has named after the Grand Central mine at Minas Prietas, formerly owned by him. The name of the new mine will be the "Altar Grand Central." Mr. Madding also carries a large assortment of fine French glass for dressers, etc., which he will cut any size and shape desired. His stock of Carpets, rugs, squares, etc., direct from New York, is the largest and best ever seen in the line city. If in need of any thing give him a call. He'll sure treat you right.

Engineer Jess Ritz, who was held at Hermosillo several days on a charge of murder, on account of accidentally running over and killing a deaf Indian, who was walking on the railroad track at that place, has a warm spot in his heart for his many kind Mexican friends at Hermosillo, who stood by him so nobly when he was in trouble, brought about by no fault of his. Although treated to the best in the land, he will not soon forget his experience in the Mexican penitentiary. Mr. Ritz states the tie-up of trains on the Sonora railway, during the time he was detained, was not caused by a strike. The trainmen, both Mexicans and Americans, realized that they were up against a condition of affairs such as they could not tolerate, and simply decided to "quiet the country." All they desire is a "square deal," nothing more.

Late reports from the town of Clifton, are that about twenty people lost their lives and damage to property will reach nearly a quarter of a million, as a result of the disastrous flood which struck that camp last Monday.
